

## Reality (Human-Centric)

Human DER Worker  
(Tools/Resources/Prompts)

Engages With

Contextual  
Constraints

Application Context  
(DER Ops)

## Digital Twin (Protocol-Enabled)

Digital Twin Worker  
(Tool Access/Knowledge/Comms)

Drives Simulation

Evaluation Context  
(Framework Implementation)

Provides Basis For

Evaluation Framework  
Refines Representation

Operates Within Protocol
